GENERAL INSTRUCTIONS FOR COMPLETING FORMS LEB 4 AND LEB 4A

West Virginia Code Section § 33-12C-7 states in part: "In addition to the full amount of gross premiums charged by the insurer, every person licensed pursuant to section eight [§ 33-12C-8] of this article shall collect and pay to the commissioner a sum equal to four percent of the gross premiums and gross fees charged, less any returned premiums, for surplus lines insurance provided by the licensee pursuant to the license. Where the insurance covers properties, risks, or exposures located or to be performed both in and out of this state, the sum payable shall be computed on that portion of the gross premiums allocated to this state pursuant to subsection (g) of this section less the amount of gross premiums allocated to this state and returned to the insured due to cancellation of the policy. The tax on any portion of the premium unearned at the termination of insurance having been credited by the state to the licensee shall be returned to the policyholder directly by the surplus lines licensee or through the producing broker, if any."

West Virginia Code Section § 33-3-33(a) imposes on "the policyholder of any fire insurance policy or casualty insurance policy issued by any insurer, authorized or unauthorized, or by any risk retention group, a policy surcharge equal to one percent of the taxable premium for each such policy." **NOTE – EFFECTIVE 1/1/2006 THE 1% SURCHARGE IS REDUCED TO 0.55%**

West Virginia Code Section § 33-3-33(b) further provides that "The policy surcharge shall be collected and remitted to the commissioner by the insurer or in the case of surplus lines coverage, by the surplus lines licensee, or if the policy is issued by a risk retention group, by the risk retention group. The amount required to be collected under this section shall be remitted to the commissioner on a quarterly basis on or before the twenty fifth day of the month succeeding the end of the quarter in which they are collected, except for the fourth quarter for which the surcharge shall be remitted on or before the first day of March of the succeeding year."

West Virginia Code Section § 33-43-2(a) states "The provisions of this article apply to all taxes, surcharges, assessments, penalties and fees, however denominated, which are remitted to the commissioner."

West Virginia Code Section § 33-43-6 states in part: "(a) Any person who is subject to a tax in a given taxable year shall file a return for that tax and that taxable year, **even if the person has no tax liability for that taxable year.** (e) If a tax is to be paid in installments, the taxpayer shall file an appropriate return for each period for which an installment payment is calculated, **even if the taxpayer is not required to make an installment payment for that period.** The returns shall satisfy all requirements established for annual returns by this section except the filing date for an installment return is the date prescribed for the installment payment for the period described by the return. ..."

GENERAL INSTRUCTIONS FOR COMPLETING ANNUAL PREMIUM TAX ALLOCATION REPORTS

West Virginia Code Section § 33-12C-7(a) states in part: "... Where the insurance covers properties, risks, or exposures located or to be performed both in and out of this state, the sum payable shall be computed on that portion of the gross premiums allocated to this state pursuant to subsection (g) of this section less the amount of gross premiums allocated to this state and returned to the insured due to cancellation of the policy. ..."

West Virginia Code Section § 33-12C-7(g) and (h) state: "(g) If a surplus lines policy procured through a surplus lines licensee covers properties, risks or exposures only partially located or to be performed in this state, the tax due shall be computed on the portions of the premiums which are attributable to the properties, risks or exposures located or to be performed in this state. In determining the amount of premiums taxable in this state, all premiums written, procured or received in this state shall be considered written on properties, risks or exposures located or to be performed in this state, except premiums which are properly allocated or apportioned and reported as taxable premiums of a reciprocal state. In no event shall the tax payable to this state be less than the tax due pursuant to subsection (h) of this section; provided, however, in the event that the amount of tax due under this provision is less than fifty dollars in any jurisdiction, it shall be payable in the jurisdiction in which the affidavit required in section eleven (W. Va. Code § 33-12C-11) is filed. The commissioner may, at least annually furnish to the commissioner of a reciprocal state, as defined in subsection (q), section three of this article, a copy of all filings reporting an allocation of taxes as required by this subsection.

(h) In determining the amount of gross premiums taxable in this state for a placement of surplus lines insurance covering properties, risks or exposures only partially located or to be performed in this state, the tax due shall be computed on the portions of the premiums which are attributable to properties, risks or exposures located or to be performed in this state and which relates to the kinds of insurance being placed as determined by reference to the model allocation schedule and reporting form.

(1) If a policy covers more than one classification:

(A) For any portion of the coverage identified by a classification on the allocation schedule, the tax shall be computed by using the allocation schedule for the corresponding portion of the premium;

(B) For any portion of the coverage not identified by a classification on the allocation schedule, the tax shall be computed by using an alternative equitable method of allocation for the property or risk;

(C) For any portion of the coverage where the premium is indivisible, the tax shall be computed by using the method of allocation which pertains to the classification describing the predominant coverage.

(2) If the information provided by the surplus lines licensee is insufficient to substantiate the method of allocation used by the surplus lines licensee, or if the commissioner determines that the licensee's method is incorrect, the commissioner shall determine the equitable and appropriate amount of tax due to this state as follows:

(A) By use of the allocation schedule where the risk is appropriately identified in the schedule;

(B) Where the allocation schedule does not identify a classification appropriate to the coverage, the commissioner may give significant weight to documented evidence of the underwriting bases and other criteria used by the insurer. The commissioner may also consider other available information to the extent sufficient and relevant, including the percentage of the insured's physical assets in this state, the percentage of the insured's sales in this state, the percentage of income or resources derived from this state, and the amount of premium tax paid to another jurisdiction for the policy."

STATE OF _____, COUNTY OF _____

Pursuant to the provisions of §33-12C-11 (b) (8) of the West Virginia Code, I, _____, a Surplus Lines Licensee duly licensed by the State of West Virginia, hereby make oath and state to the Insurance Commissioner of West Virginia, that the attached Annual Report of Surplus Lines Policies is inclusive of every surplus lines policy procured by me during the preceding calendar year and that for each policy listed on the attached Annual Report of Written Surplus Lines Policies a diligent effort has been made to procure the amount of insurance necessary to protect against loss of or damage to property or person from insurers licensed to transact and actually writing this type of insurance business in West Virginia, and that the placing of this insurance has not been for the purpose of securing advantages as to premium rate or terms of the insurance contract. I make oath and state that I will maintain as a part of the full and true record of each procured surplus lines policy the reasons why I was unable to place the risk with a licensed insurer or in the case of a policy forwarded from an individual insurance producer, the form prescribed by the Insurance Commissioner, executed and forwarded to me from the individual insurance producer declaring that a diligent search was made to procure the desired coverage from admitted insurers by that individual insurance producer.

Having failed to procure the required insurance with insurers licensed to transact business in West Virginia, I make oath that the following statements were printed or stamped in contrasting color on the face of each policy or other evidence of insurance:
